

Federal Transportation Funds Support Oregon's Smart Growth Program

Amanda Punton
Oregon Coastal Management Program

The Transportation and Growth Management Program

Joint Program Since 1993

- Oregon Department of Transportation (ODOT)
- Oregon Department of Land Conservation & Development, (DLCD)

TGM Promotes Efficient Development

- Increase transportation choices
- Use land efficiently
- Take advantage of existing urban services
- Mix land uses
- Design development to the scale and comfort of people

Water Quality Benefits

Compact development means less impervious service area to serve a given population

- Fewer vehicle miles traveled
- Less car emissions
- Less need to encroach on sensitive environmental areas
- Less stormwater runoff

Funding

ISTEA / TEA-21 / SAFETEA-LU

- Federal Highway Administration provides Surface Transportation Program (STP) grants
- States may use STP funds for highway construction, transportation planning, etc.

Transportation management and growth management are linked

- **Land use patterns open up – or lock out – transportation choices**
- **Transportation projects influence future land use patterns**

TGM Budget

85% Federal 15% State and local match

For '05-'07 biennium:

- \$ 4.3 million awarded to fund forty-six transportation projects around the state.
- \$1 million available for direct community assistance to local governments and developers

Five Components of TGM

Grants

Outreach

Quick Response

Code Assistance

Publications

Grants

Grants are provided to local communities on a competitive basis to plan for streets and land use in a way that creates livable, transportation-efficient communities and makes the best use of state highway infrastructure.

Quick Response

- Provides transportation planners, architects and landscape architects
- Helps local governments, developers, and neighborhood groups incorporate TGM and smart growth objectives into site plans

Outreach Services

- Workshops on transportation/land use issues
- Facilitated planning commission sessions
- Speakers at public forums

Code Assistance

- Provides planning consultants to local governments
- Prepares code amendments to facilitate infill, multi-modal transportation options and other smart growth objectives

Publications

- **Model Code**
- **Infill & Redevelopment Code Handbook**
- **Main Street: When A Highway Runs Through It**
- **Parking Management Made Easy**
